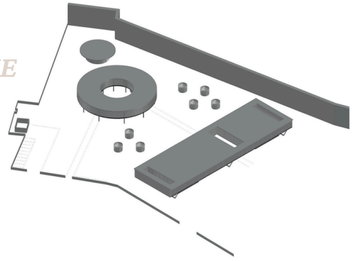
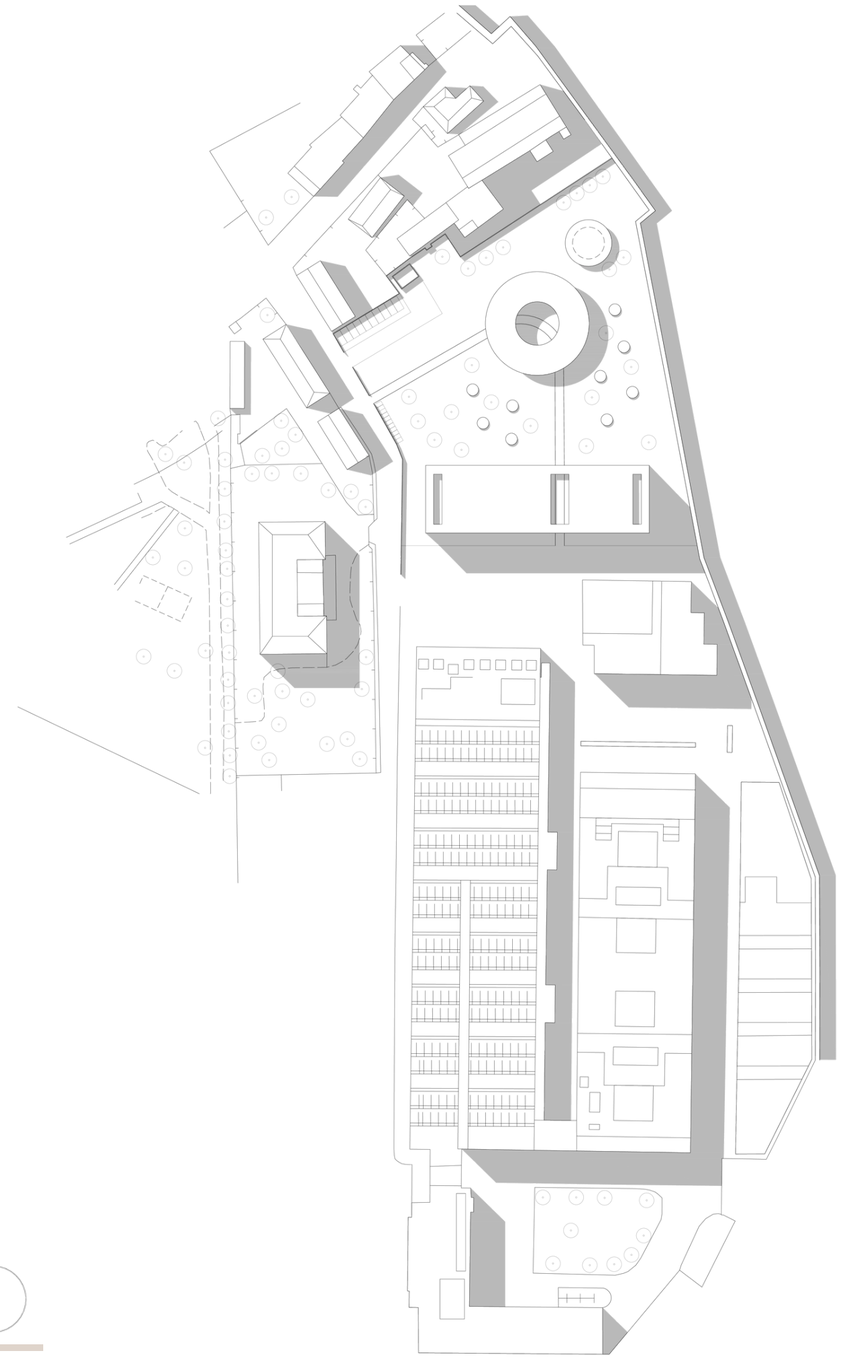
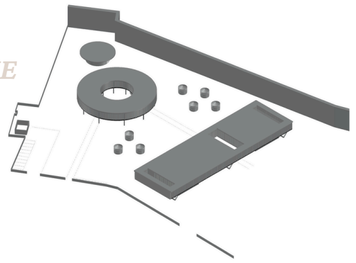
# LA NUOVA AREA PONTECORVO

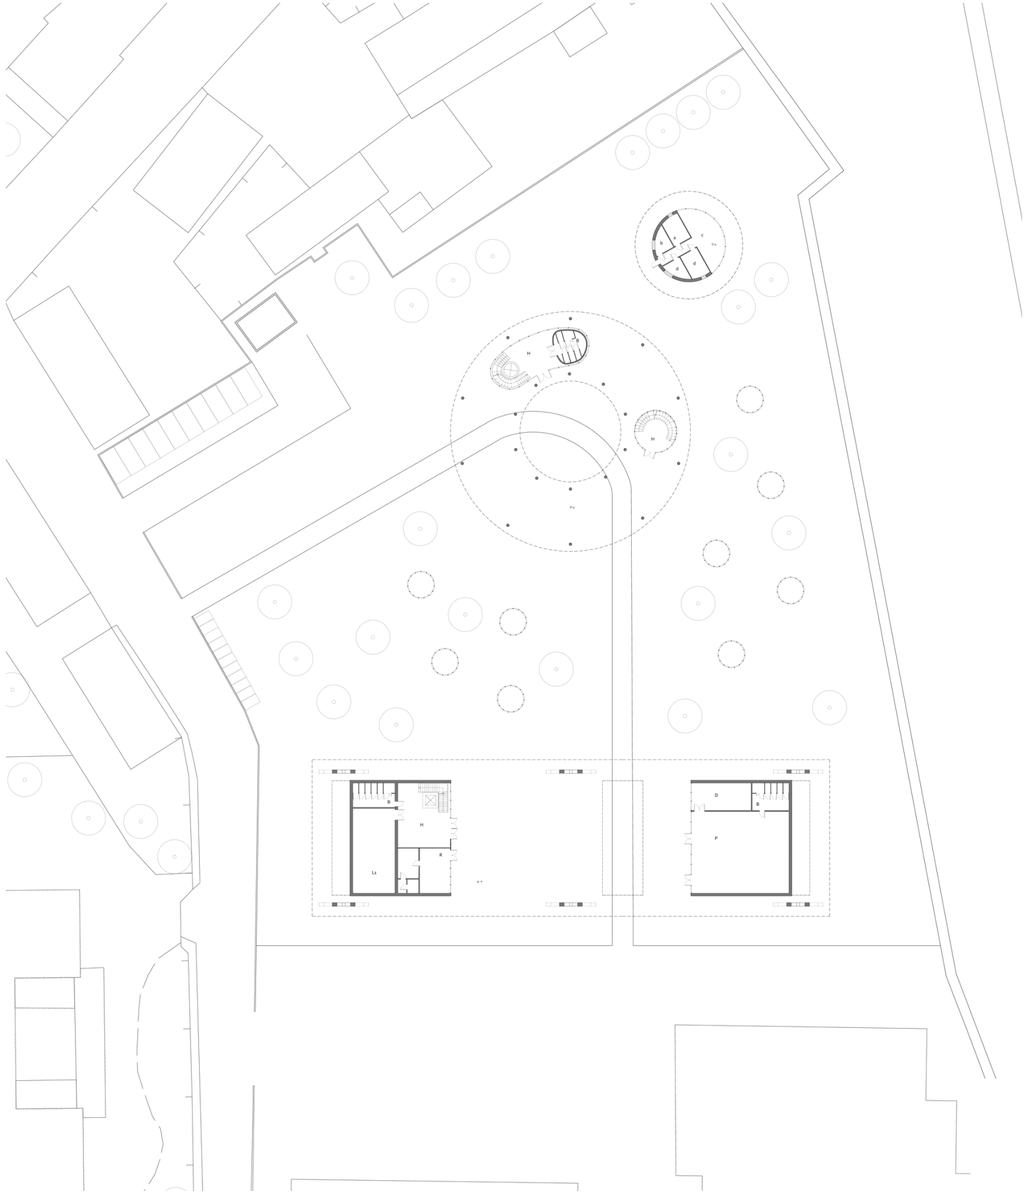
Giada Liberto e Matilde Orsini





L’elemento chiave del progetto è il **passaggio pedonale**, che, partendo dall’area dove ora si trova l’aula studio Pacinotti, curva fino a **coincidere** con il passaggio già presente tra gli edifici dell’area sottostante. Data l’importanza del passaggio, questo è reso visibile dall’alto tramite delle **forature** nelle coperture degli edifici principali del progetto, creando così un elemento di **continuità**. Entrambi gli edifici sono progettati in modo che il passaggio pedonale non venga **mai interrotto**, quindi aperti al piano terra e con un maggiore sviluppo al primo piano.





# PLANIMETRIA DI PROGETTO CON APPROFONDIMENTO DELLE PIANTE DEGLI EDIFICI PRINCIPALI

LEGENDA

P - Aula Polifunzionale
B - Bagno
D - Deposito
H - Ingresso
L1 - Lab. Ottica 80mq
R - Bar ristoro
a - Ambiente Studio Eigenlab
b -Bagno Eigenlab
c - Soggiorno Eigenlab
d - Altri Ambienti
1 - Passaggio Pedonale
2 - Passaggio Carrabile
3 - Piazza
